

A Summer Quarter Welcome Message from the Dean

Dear Members of the Emperor's College Community:

As we approach the summer solstice the yang is at it's maximum, and so is our new Biomedicine faculty! We are very privileged and pleased to have Dr. Patrick Downie joining Dr. Nguyen, Dr. Thornton and Prof. Redmond as faculty member in both our MTOM & DAOM Biomedicine departments starting this summer quarter. Enthusiastic and passionate about integrative medicine, Dr. Downie is widely regarded to be among the preeminent western medicine instructors in complementary medicine education in the country.

Dr. Downie graduated from National College of Chiropractic in Lombard, Illinois in 1996 and pursued additional clinical training in orthopedics and neurology. He was Co-Director of a NIH CAM research grant at Rush University College of Nursing, practiced as a staff Chiropractor at Northwestern Medicine's Center for Integrative Medicine, and served as both a professor and Bioscience Department Chair at Pacific College of Oriental Medicine, in Chicago for over a decade. Dr. Downie is an active member of the American Association of Anatomists.

Speaking of our amazing faculty, I want you to be aware of the fact that our Korean Specialty will have a Wednesday offering for the first time with Prof. Jae Hoon Kim. Also Dr. Maeda Sensei will be supervising Thursday evening due to increase demand for the Japanese Concentrations shifts.

We are now close to the midway point into the quarter with summer registration is now seven weeks away.

I am pleased to announce that we have electives for all our five Concentrations this coming summer quarter as well as the largest and most comprehensive Nei Gong electives to date! The course descriptions as well as their prerequisites will be posted on the student announcement board across from room A.

Please come and see me to talk about any questions you may have about our amazing Concentrations experience and how you can be a part of it. We've had such great positive feedback from the current participants who are completing both the Korea , Japanese, Classics and Nei gong concentrations at the end of this quarter.
