COURSE DESCRIPTION

The first of a two-course series, Zang Fu I familiarizes students with simple pathology identification and differentiation according to the model of TCM internal medicine. Students learn the basic signs and symptoms for identifying Zang Fu patterns, utilizing the concepts of eight principles, vital substances, and the organ (Zang Fu) theory. Upon completion of this course, students will be able to differentiate and diagnose simple patterns of pathology and pathogenesis, in accordance to the Zang Fu Theory.

LEARNING OBJECTIVES

Objective: In this class we cover 3 of the 10 methods of disease differentiation, Zang Fu, qi xue and jin ye, and eight principle theories.
