COURSE DESCRIPTION

The second in this two course series continues to explore the diagnostic skills and knowledge for identifying complex pathological patterns of TCM internal medicine. Students gain an understanding of the complex patterns in Zang Fu diagnosis, including differentiation of etiology, root, branch, symptoms and environmental and congenital patterns that involves more than one organ system. Students will also learn how to write and present case studies in a clear, precise, and professional manner.

LEARNING OBJECTIVES

Upon completion of this class, students will be able to identify, differentiate, and diagnose complex patterns of pathology and pathogenesis, in accordance to the Zang Fu Theory.

SPECIAL NOTES

Students will be required to work in groups set by the instructor on projects in and outside of class. Only TWO (2) absences are permitted. More than two absences will result in course failure. 2 absences may constitute a change in grade. Readings for each week should be done BEFORE the class. Obviously this won’t be possible for the first class. Attendance for the full class hours is required. 30 minutes late for beginning of class or break or leaving at end of class will be considered an absence. Grading will include consideration of class participation.
