COURSE DESCRIPTION

This course is an introduction to the basic skills and theories of TCM diagnosis, using the “Four Pillars” of diagnosis; Observation, Auscultation/Olfaction, Inquiry and Palpation. Students will be exposed to the diagnostic techniques and indexes for pulse and tongue examinations, Qi/Blood/Fluid patterns, the eight principles and four levels of pattern identification, and the visual examinations of the face and body. Upon successful completion of this course, the TCM student will have gained the basic skills and knowledge to perform patient intakes and gather relevant information to formulate a TCM diagnosis.

LEARNING OBJECTIVES

The successful student will be able to apply the "Four Pillars" or "Four Examinations"; namely, "Looking", "Listening/Smelling", "Asking" and "Touching" in order to reach a working diagnosis according to the principles of Traditional Chinese Medicine.

Professionalism and Full and Prompt Attendance: To pass any course (separate from academic performance) all students must meet requirements for professionalism in coursework. Professionalism includes full and prompt attendance: Students who miss more than 2 class meetings in a 10-week course will earn an F in that course. Additionally, students who arrive more than 15 minutes to class or leave class before it ends will be marked tardy. Two tardies equal one absence. NOTE: Students who leave or return to class late from a break or leave during the class (especially if this is repeated) or who disrupt the class in other ways may be referred to the Academic Dean for professionalism.
